Energy Awareness Quiz

As kinetic energy is the form of energy an object has as it is moving, we must look at which object is moving. In this case, the docked boat, the willow tree and the sleeping cat are all stationary and not moving. However, the falling leaves are in a state of movement so they would be using kinetic energy. Answer (c) is correct

Grades 6, 7 and 8 | Science | Middle School | Energy

Practice: Work and energy questions. This is the currently selected item. Introduction to work and energy. Work and energy (part 2) Work and the work-energy principle. Work example problems. Conservation of energy. Work/energy problem with friction. Intro to springs and Hooke's law.
