### **Models in environmental regulatory decision making (Book ...**

In environmental decision making, the separation is not valid because of uncertainties involved in environmental risk and value judgments inherent in the assumptions of the modelling process. The alternative view taken here and adopted by the Australian and New Zealand Standards Associations [15] is that risk management involves the whole process of risk assessment and risk control.

### **Environmental Decision Making and Risk Management**

Environmental Assessment is an inherently interdisciplinary and increasingly important legal mechanism that is concerned with the input and quality of information about the likely effects of development upon the environment. It is a useful tool for examining aspects of the relationship between law, governance, and the regulation of decision-making, which have been central to the development of ...
