### Sustainable Energy - Without the Hot Air with David MacKay ...

We have an addiction to fossil fuels, and it's not sustainable. The developed world gets 80% of its energy from fossil fuels; Britain, 90%. And this is unsustainable for three reasons. First, easily-accessible fossil fuels will at some point run out, so we'll eventually have to get our energy from someplace else.

### Sustainable Energy - without the hot air

"There are so many books about sustainable energy and alternative energy on today's market that one might wonder about the need for yet another; but Sustainable Energy - Without the Hot Air

offers something different - and that's a notable achievement in a genre overloaded with too many revamps using the same approach." —D. Donovan, Midwest Book Review, California Bookwatch
